Description The Air Force Institute of Technology is offering a Master's degree level internships at Wright Patterson Air Force Base.

What will I be doing?

As an ORISE participant, you will join a community of scientists and researchers in an effort to conduct research in the area of compiler optimization. Our approach aims to port a popular compiler framework to a new modern chipset. You will have an opportunity to learn about compiler front ends, intermediate code, and back ends. There is an opportunity to learn and implement advanced optimizations in the resulting compiler system. Learning goals include a better understanding of techniques to implement and optimize code using a new novel computer architecture.

Where will I be located? Wright Patterson Air Force Base, Ohio

What is the anticipated start date?

Exact start dates will be determined at the time of selection and in coordination with the selected candidate. Applications are reviewed on an ongoing basis and internships or fellowships will be filled as qualified candidates are identified.

What is the appointment length?

This appointment is a 4 month research appointment, with the possibility to be renewed for additional research periods. Appointments may be extended depending on funding availability, project assignment, program rules, and availability of the participant.

What are the benefits?

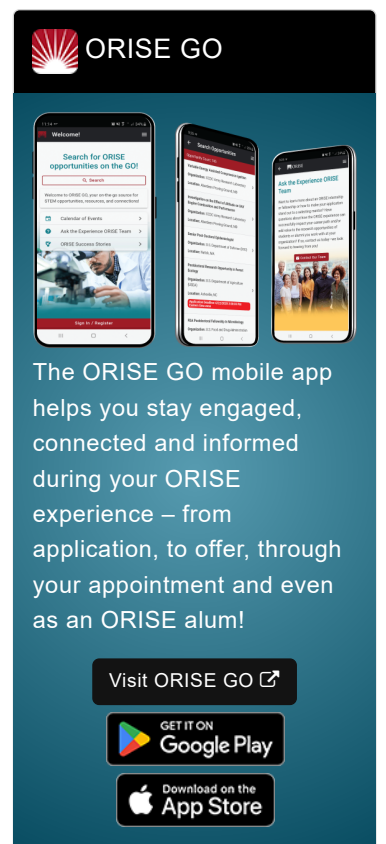

You will receive a stipend to be determined by AFIT. Stipends are typically based on a participant's academic standing, discipline, experience, and research facility location. Other benefits may include the following:

- Health Insurance Supplement (*Participants are eligible to purchase health insurance through ORISE*)
- Relocation Allowance
- Training and Travel Allowance
