

Opportunity Title: CDC STD Partnerships, Policy, and Planning Fellowship

Opportunity Reference Code: CDC-NCHHSTP-2022-0328

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-NCHHSTP-2022-0328

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

Application Deadline 11/7/2022 3:00:00 PM Eastern Time Zone

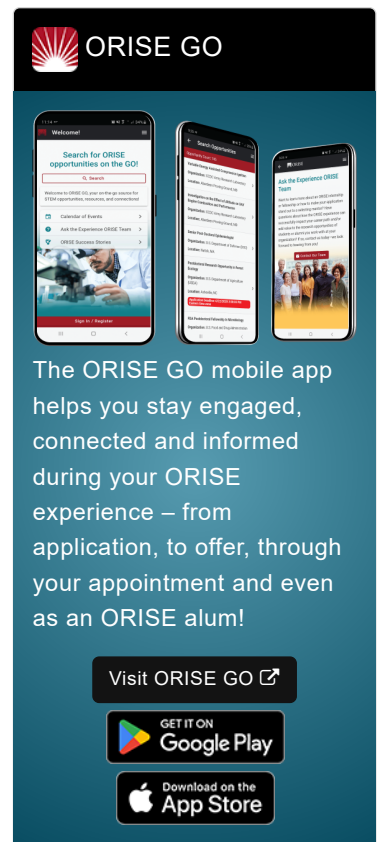

Description *Applications will be reviewed on a rolling-basis.

CDC Office and Location: A fellowship opportunity is available in the Office of Communications Policy, Planning, and Partnerships (OCPPP) within the Division of STD Prevention (DSTDP), of the National Center for HIV, Viral Hepatitis, STD, and TB Prevention (NCHHSTP) at the Centers for Disease Control and Prevention (CDC) located in Atlanta, Georgia. **This Fellowship will be 100% virtual.**

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

Research Project: This fellow will be trained on the key roles in supporting the Partnerships, Policy, and Planning unit in the development and maintenance of initiatives to advance the mission of DSTDP.

The primary purpose of this fellowship is to learn about public health partnerships, policy, planning, and evaluation. The fellow will primarily learn how DSTDP's policy-driven projects are identified and implemented through strong external partnerships. The fellow will gain insight into how DSTDP collaborates with key partners to create tools, implement, evaluate, and disseminate promising policies, models, and best practices to help strengthen health department infrastructure and systems. The fellow will gain valuable insight on partnership engagement, expanding collaborations (both public and private), and fostering a culture of cooperation as they relate to the organization and STI prevention and control across the U.S. The person in this role will learn how to design projects and collaborate with partners to advance DSTDP's strategic priorities through identifying, implementing, monitoring, analyzing, and evaluating complex and highly

visible actions, policies, and models related to STI prevention and advancing sexual health.

Learning Objectives: Specific activities include:

- Learn how to collaborate with partners to identify, implement, monitor, analyze, and evaluate complex and highly visible actions, policies, and models related to STI prevention and advancing sexual health;
- Learn how to design, implement, and assess demonstration projects across local health departments and EHE jurisdictions;
- Learn how to develop strategic partnerships with the public and private sector, including social justice and health equity-oriented organizations, to expand innovation in STI service delivery, care, and extend reach of our products and messages;
- Learn how to develop, promote, and disseminate tool, materials, and resources for decision makers;
- Learn how to develop scientific programmatic abstracts and create a variety of organization-wide reports and materials for internal and external use; and
- Learn how to assess issues of importance to the mission and activities of the program.

Mentor(s): The mentor for this opportunity is Melissa Habel (evh6@cdc.gov). If you have questions about the nature of the research please contact the mentor(s).

Anticipated Appointment Start Date: December 31, 2022. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens only.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email ORISE.CDC.NCHHSTP@ornl.gov and include the reference code for this opportunity.

Opportunity Title: CDC STD Partnerships, Policy, and Planning Fellowship

Opportunity Reference Code: CDC-NCHHSTP-2022-0328

 - **Communications and Graphics Design** ([6](#))
 - **Life Health and Medical Sciences** ([6](#))
 - **Social and Behavioral Sciences** ([11](#))

Affirmation I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the ORISE program. (Exceptions may be granted for individuals who, since the previous CDC employment, have obtained a new STEM degree which necessitates training in a new field.)
