

Opportunity Title: 2023 Technology Commercialization Internship Program

Opportunity Reference Code: 2023-Internships-OTT

Organization U.S. Department of Energy (DOE)

Reference Code 2023-Internships-OTT

How to Apply Click on *Apply* below to start your application.

Application Deadline 2/15/2023 8:00:00 AM Eastern Time Zone

Description The Technology Commercialization Internship Program sponsored by the [Office of Technology Transitions \(OTT\)](#), provides paid opportunities for undergraduate students to explore and contribute to advances at the intersection of business and innovative technologies like machine learning, artificial intelligence, computing, data science and biofuels. Students undergo intensive training as they join the U.S. Department of Energy's (DOE's) world-class national laboratory system, boost entrepreneurial thinking, and explore market opportunities.

As a program participant, you will:

- **Participate in and contribute to** OTT mission-related research, technical and policy activities under the guidance of technology transfer experts and/or OTT staff.
- **Learn and collaborate** with Technology Transfer specialists at [DOE national laboratories](#) working on commercialization efforts related to the OTT mission, and establish long-term relationships between yourself, technology transfer experts, and OTT staff.
- **Gain deep insight** into the federal government's role in the creation and implementation of policies that will affect energy technology development.
- **Enhance your education and training** in OTT-related fields and increase your future marketability in these disciplines.

The [Office of Technology Transitions \(OTT\)](#) strongly believes in a diverse workforce for the next generation of technology commercialization professionals. The OTT Technology Commercialization Program supports [DOE's Justice40 Initiative](#) and DOE efforts to advance Diversity, Equity, Inclusion, and Accessibility. Hence, students from disadvantaged communities, underrepresented groups in science, technology, engineering, and mathematics (STEM), and Minority Serving Institutions are encouraged to apply.

Opportunity Title: 2023 Technology Commercialization Internship Program

Opportunity Reference Code: 2023-Internships-OTT

ceremony will provide interns an opportunity to showcase their summer projects.

Duration

Internships will be for 10-12 consecutive weeks beginning on or about June 1, 2023. Length of the appointment will depend on the project assignment and mentor and student's availability.

Review and Selection Process

OTT will review applications for merit and relevance before mentors at national laboratories review applications to determine if there is a match between your knowledge, skills and interests and the available projects. OTT and mentors may contact you for interviews. Final selections will be made by a federal official from OTT. ORISE will notify selected candidates.

Nature of Appointment

The participant will not enter into an employee/employer relationship with ORISE, ORAU, DOE, or any other office or agency. Instead, the participant will be affiliated with ORISE for the administration of the appointment through the ORISE Appointment Letter and Terms of Appointment.

About OTT

The U.S. Department of Energy (DOE) is one of the largest supporters of technology transfer in the federal government. The Office of Technology Transitions (OTT) was established in 2015 to oversee and advance this important mission by expanding the public impact of the department's research and development (R&D) portfolio to advance the economic, energy, and environmental interests of the nation. The office develops and implements on the Department's policy and vision for expanding the commercial impact of its research investments, and it streamlines information and access to DOE's National Laboratories (listing available at https://www.labpartnering.org/choosing_a_lab) and sites to foster partnerships that will move innovations from the Labs into the marketplace. OTT hosts the Lab Partnering Service (LPS) Website where one can find information on and access DOE Experts, Innovations, and Labs. This information is located at: <https://www.labpartnering.org>.

The Chief Commercialization Officer serves as Director of the Office of Technology Transitions, whose responsibilities include oversight of the [Technology Commercialization Fund](#) (TCF), Technology Transfer Working Group, and the coordination of technology transfer activities and best practices across the DOE complex.

OTT's responsibility extends throughout the Department's programs, 17 National Laboratories, and other research and production facilities located throughout the country. The office works closely with stakeholders and personnel at all these locations to ensure the development of the best

policies and to maintain awareness of the latest issues. Together, OTT works with internal and external partners to enhance the nation's economic competitiveness and strengthen its leadership in innovation and transformative, impactful technologies that can help tackle the climate challenges of today.

Additional information about OTT's activities is described on OTT's website: <https://www.energy.gov/technologytransitions/office-technology-transitions>

Qualifications To be considered, applicants must meet each of the following criteria by the application deadline:

- Be a U.S. citizen or a permanent resident. For non-U.S. citizens, appointments are contingent upon having a valid immigration status. Selected candidates must provide suitable documentation to verify status at the time appointment is accepted.
- Be at least 18 years old by June 1, 2023.
- Be enrolled as a full-time undergraduate student during the 2022-2023 academic year pursuing a degree in science, technology, mathematics, engineering, or business with an interest in entrepreneurship and technology commercialization. You must provide proof of enrollment during the 2022 Fall. Candidates selected for an internship appointment will be required to provide proof of enrollment for 2023 Spring.
- Have coverage under a health insurance plan during the appointment. Selected candidate must provide proof of such coverage before the appointment start date.
- Be available to participate virtually in a summer long appointment. Length of the appointment will depend on the project assignment and mentor and candidate's availability.

A completed application consists of:

- All required fields in the profile
- Program Specific Questions
 - Goals: Please list your personal, educational, and professional goals and interests and explain how this opportunity may enable you to achieve those. Describe any experiences or situations that you feel have influenced your interest.
 - Skills: Please list your professional/technical skills and abilities that are relevant to this opportunity, including knowledge/skills related to specialized laboratory equipment or techniques, computer hardware, software, or computer languages and/or applications.
 - Professional Experience: Please list any research, technical and/or professional experience that was focused on (1) technology development; (2) technology commercialization; and (3) entrepreneurship.
 - Personal Experience: The Office of Technology Transitions recognizes that (1) diversity is a critical element in the development
