

Opportunity Title: ORNL Pathways to Computing Internship Program (PCIP) - Summer 2023

Opportunity Reference Code: ORNL-PCIP-2023

Organization: Oak Ridge National Laboratory (ORNL)

Reference Code: ORNL-PCIP-2023

Application Deadline: 2/1/2023 5:00:00 PM Eastern Time Zone

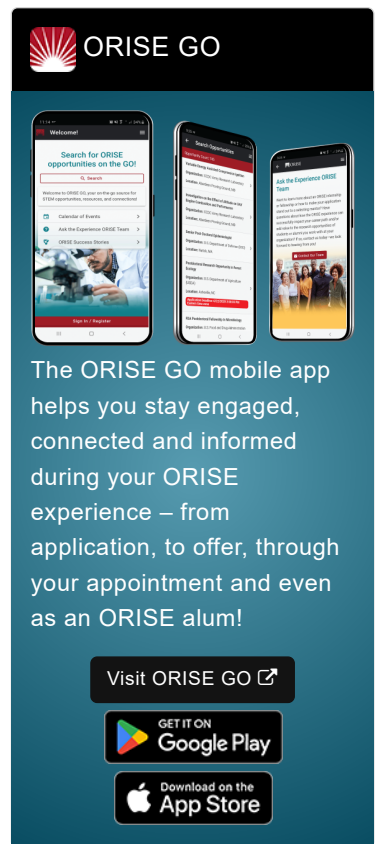

Description: The Pathways to Computing Internship Program at Oak Ridge National Laboratory (ORNL) is a 10-week summer program that provides undergraduate students with learning opportunities in computer science, computational science, and mathematics. Students will be mentored by ORNL research and technical staff and will be able to make contributions to projects in diverse domains including computer science, health data science, and climate science. In addition, students will gain valuable skills needed for a successful career in computing fields. Selected interns will have access to ORNL's leadership-class facilities, including Summit, the world's 2nd most powerful supercomputer.

Oak Ridge National Laboratory is the largest US Department of Energy science and energy laboratory, conducting basic and applied research to deliver transformative solutions to compelling problems in energy and security. ORNL's Computing and Computational Sciences Directorate oversees an immense store of computing power and its talented staff of computational scientists and mathematicians, conduct state-of-the-art research and development in computer and computational sciences in support of the Department of Energy's missions and programs.

Who Should Apply

As part of the ORNL Pathways to Computing Internship Program, the Computing and Computational Sciences Directorate is committed to increasing diversity among interns and staff. We believe the teams required to solve the nation's most pressing science challenges are those that bring together a wide range of backgrounds and perspectives. We look forward to receiving applications representing diverse experience levels and backgrounds in the following areas:

- Artificial Intelligence / Machine Learning / Data Science
- Astrophysics
- Bioinformatics / Computational Biology
- Computer Science Research (e.g. compilers, programming models, programming tools)
- Cybersecurity
- Earth and Atmospheric Sciences / Climate Science
- High Performance Computing Operations (e.g. system administration, storage systems, system/user support)
- Performance Profiling & Optimization
- Quantum Computing

Opportunity Title: ORNL Pathways to Computing Internship Program (PCIP) -

Summer 2023

Opportunity Reference Code: ORNL-PCIP-2023

- Software Engineering
- Visualization
- Other computer science areas (e.g. CS theory)
- Other computational areas (e.g. material science, chemistry)

Diversity is Key

Scientific discovery is a team effort. Researchers, engineers, and technical and business professionals support achievements in science and technology by helping to manage and operate research projects and facilities. We believe the teams required to solve the nation's most pressing scientific challenges are those that combine a wide range of backgrounds and perspectives.

Program Details

- Ten-week research appointment
- Full-time participation (40 hours per week)
- Appointments will start on May 22, 2023 and will end on July 28, 2023. Dates for individual appointments may be flexible to account for academic calendars and trimester schedules.

Stipends, Housing, and Travel

- Stipend range of \$650 to \$750 per week (Stipends are paid on a bi-weekly schedule and there will be a delay after starting before you receive your first stipend. **You should be prepared to cover all expenses for the first 30 days of your appointment.**)
- Housing assistance will be provided.
- Non-local students may be eligible for up to \$1,000 towards reimbursement of expenses related to travel to Oak Ridge, TN for the appointment period.

Applications will be accepted and reviewed on a rolling basis until February 1, 2023 at 5:00 PM EST OR until available spaces are filled.

Questions on this opportunity may be directed to ORNL-USO@orise.orau.gov.

Qualifications Applicants are expected to have an interest in one or more of the listed primary focus areas. The statement of purpose and description of preferred focus areas provide an opportunity for the applicant to describe their connection to and goals related to these areas. Previous experience is not a requirement for participation.

Opportunity Title: ORNL Pathways to Computing Internship Program (PCIP) -

Summer 2023

Opportunity Reference Code: ORNL-PCIP-2023

Eligibility requirements:

- Must be currently enrolled as a full-time undergraduate student in a degree-seeking program at an accredited U.S. college or university (including accredited community colleges) at time of application and continuing into the fall 2023 semester
 - Full-time enrollment status is determined by the number of hours or courses the school requires for full-time attendance (as defined by the Internal Revenue Service)
 - Seniors graduating in May/June 2023 or earlier will not be eligible for application or selection as continuation as an undergraduate in fall 2023 is required
- Must have a cumulative minimum GPA of 3.0 on a 4.0 scale

Eligibility Requirements

- **Degree:** Currently pursuing an Associate's Degree or Bachelor's Degree.
- **Overall GPA:** 3.00
- **Discipline(s):**
 - **Chemistry and Materials Sciences** ([12](#))
 - **Computer, Information, and Data Sciences** ([17](#))
 - **Earth and Geosciences** ([20](#))
 - **Engineering** ([6](#))
 - **Environmental and Marine Sciences** ([1](#))
 - **Life Health and Medical Sciences** ([18](#))
 - **Mathematics and Statistics** ([11](#))
 - **Physics** ([16](#))
 - **Science & Engineering-related** ([1](#))
 - **Social and Behavioral Sciences** ([2](#))

Affirmation I certify that all information I have provided is correct and accurate to the best of my knowledge.
