

**Opportunity Title:** CDC Rabies Serological Diagnosis Fellowship

**Opportunity Reference Code:** CDC-NCEZID-DHCPP-2022-0411

**Organization** Centers for Disease Control and Prevention (CDC)

**Reference Code** CDC-NCEZID-DHCPP-2022-0411

**How to Apply** *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

**Application Deadline** 2/13/2023 3:00:00 PM Eastern Time Zone

**Description** \*Applications will be reviewed on a rolling-basis.

**CDC Office and Location:** An ORISE position is currently available with the Poxvirus and Rabies Branch (PRB), Division of High-Consequence Pathogens and Pathology (DHCPP) at the National Center for Emerging and Zoonotic Infectious Diseases (NCEZID) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

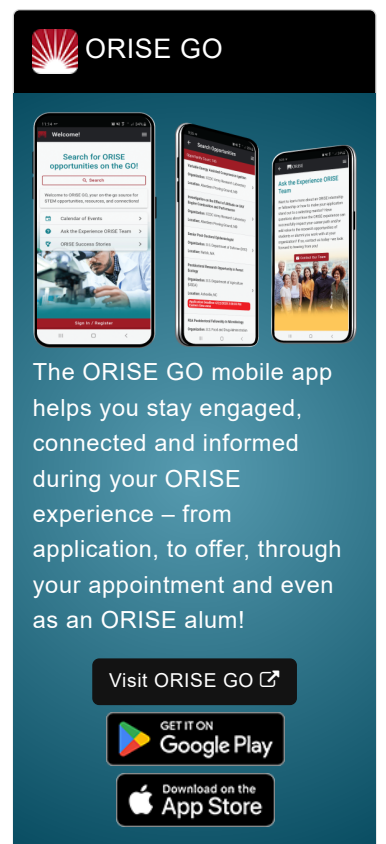

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

**Research Project:** Under the guidance of a mentor, the participant will be involved in the following activities:

- Maintenance of cell culture and propagating rabies virus in cell culture
- Perform rabies serology tests to detect antibodies against rabies virus
- The serology tests will include RFFIT, IFA, ELISA and other novel assays
- Analyze, publish, and present data

**Learning Objectives:** By participating in the above listed research and project, the participant will learn broad techniques and skills in the serological diagnostics of rabies virus. The participant will be able to collaborate with other scientists in the laboratory and get trained on the approach and techniques in the laboratory diagnostics of rabies virus at the CDC.

**Mentor(s):** The mentor(s) for this opportunity is Christy Hutson ([zuu6@cdc.gov](mailto:zuu6@cdc.gov)). Please contact them if you have questions about the

nature of this research.

**Anticipated Appointment Start Date:** February 6, 2023. Start date is flexible and will depend on a variety of factors.

**Appointment Length:** The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

**Level of Participation:** The appointment is full-time.

**Participant Stipend:** The participant will receive a monthly stipend commensurate with educational level and experience.

**Citizenship Requirements:** This opportunity is available to U.S. citizens or Lawful Permanent Residents (LPR).

**ORISE Information:** This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

**Questions:** Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email [ORISE.CDC.NCEZID@orau.org](mailto:ORISE.CDC.NCEZID@orau.org) and include the reference code for this opportunity.

**Qualifications** The qualified candidate should be currently pursuing or have received a bachelor's degree in one of the relevant fields (e.g. Animal Sciences, Chemistry, Biology). Degree must have been received within the past five years.

Preferred Skills:

- Basic laboratory background, cell culture experience is a plus
- Proficient in basic computer applications purification
- Excellent oral and written communication skills

**Eligibility Requirements**

- **Citizenship:** LPR or U.S. Citizen
- **Degree:** Bachelor's Degree received within the last 60 months or currently pursuing.
- **Discipline(s):**
  - **Chemistry and Materials Sciences** ([1](#) )
  - **Life Health and Medical Sciences** ([4](#) )

**Opportunity Title:** CDC Rabies Serological Diagnosis Fellowship

**Opportunity Reference Code:** CDC-NCEZID-DHCPP-2022-0411

**Affirmation** I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the ORISE program. (Exceptions may be granted for individuals who, since the previous CDC employment, have obtained a new STEM degree which necessitates training in a new field.)
