

Opportunity Title: CDC National Poliovirus Survey Support for the U.S. NAC

Fellowship 2023

Opportunity Reference Code: CDC-CPR-2023-0163

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-CPR-2023-0163

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

Application Deadline 8/7/2023 3:00:00 PM Eastern Time Zone

Description ***Applications will be reviewed on a rolling-basis, and this opportunity will remain open until filled.**

CDC Office and Location: A training opportunity is currently available in the U.S. National Authority for Containment of Poliovirus (U.S. NAC) within the Office of Readiness and Response (ORR) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

The U.S. NAC is responsible for the management of a national-level survey of facilities working with poliovirus infectious and potentially infectious materials, and implementation of poliovirus containment activities in the United States.

Research Project: This fellowship with the U.S. NAC will provide an opportunity to learn about public health and will focus on customer support for the National Inventory for Poliovirus Containment survey. Under the guidance of the National Survey Manager, the fellow will engage in oral and written communication with U.S. laboratory facilities to 1) prepare for enrollment in the survey including call scheduling, 2) resolve survey related questions from biosafety personnel and survey participants, 3) document survey participation justifications in a NAC database, and 3) obtain needed documentation of material destruction and other poliovirus-relevant inventory changes. The fellow will also assist with data management, development of data visualization products (e.g., Power BI dashboard and report graphics), survey outreach, and preparing written documentation of NAC operational processes and procedures. The fellowship is a limited 12-month term beginning July 5, 2023.

Opportunity Title: CDC National Poliovirus Survey Support for the U.S. NAC

Fellowship 2023

Opportunity Reference Code: CDC-CPR-2023-0163

Visit the NAC website for information about the poliovirus containment program:

<https://www.cdc.gov/orr/polioviruscontainment/index.htm>

Learning Objectives: This fellowship offers an opportunity to learn about and gain hands-on experience in the following activities:

- Providing customer support to individuals seeking assistance related to the U.S. National Inventory for Poliovirus Containment
- Optimizing and analyzing NAC survey data (e.g., characterizations, trends, projections, inconsistencies)
- Identifying and utilizing qualitative and quantitative data for use in assessing the progress of poliovirus containment in the United States
- Preparing visual representations of survey data in traditional and novel ways
- Documenting processes and procedures for existing NAC survey team activities (e.g., inactivating, importing, and reimporting surveys)

Mentor(s): The mentor for this opportunity is Kawi Mailutha (gqu3@cdc.gov). If you have questions about the nature of the research please contact the mentor(s).

Anticipated Appointment Start Date: July 5, 2023. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens, Lawful Permanent Residents (LPR), and foreign nationals. Non-U.S. citizen applicants should refer to the [Guidelines for Non-U.S. Citizens Details page](#) of the program website for information about the valid immigration statuses that are acceptable for program participation.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

Questions: Please visit our [Program Website](#). After reading, if you have additional

Preferred skills:

- Strong oral and written communication skills for various audiences
- Strong proficiency with Microsoft Office products
- Critical thinking
- High attention to detail
- Ability to work independently

Eligibility Requirements

- **Degree:** Bachelor's Degree, Master's Degree, or Doctoral Degree received within the last 60 months or currently pursuing.
- **Discipline(s):**
 - **Communications and Graphics Design** (2 )
 - **Life Health and Medical Sciences** (2 )
 - **Other Non-Science & Engineering** (1 )
 - **Social and Behavioral Sciences** (1 )

Affirmation

I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the ORISE program. (Exceptions may be granted for individuals who, since the previous CDC employment, have obtained a new STEM degree which necessitates training in a new field.)
