

**Opportunity Title:** Heliophysics Science: Solar Theory and Computational Studies

**Opportunity Reference Code:** 0113-NPP-NOV23-GSFC-HelioSci

**Organization** National Aeronautics and Space Administration (NASA)

**Reference Code** 0113-NPP-NOV23-GSFC-HelioSci

**Application Deadline** 11/1/2023 6:00:59 PM Eastern Time Zone

**Description** Our research is focused on understanding the solar origins of space weather and other energetic solar phenomena, through a combination of data interpretation, theory, and numerical simulations. A key goal of our studies is to decipher how magnetic reconnection operates in the Sun's atmosphere, and its essential role in nearly all manifestations of solar activity including the formation and structure of the solar wind. We work closely with colleagues specializing in data collection and analysis to ensure the best possible closure between the latest observations and our theoretical models. Ongoing investigations in this wide-ranging program include the formation and evolution of filament channels; the initiation and propagation of coronal mass ejections; the role of reconnection in chromospheric and coronal jets; coronal heating by nanoflares; the condensation and dynamics of prominence plasmas; flare reconnection; the dynamic interaction between closed and open magnetic flux on the Sun; coronal interchange reconnection and heliospheric current sheet dynamics; and the physics of flux cancellation.

**Location:**

Goddard Space Flight Center  
Greenbelt, Maryland

**Field of Science:** Heliophysics Science

**Opportunity Title:** Heliophysics Science: Solar Theory and Computational Studies

**Opportunity Reference Code:** 0113-NPP-NOV23-GSFC-HelioSci

**the United States.** A complete list of Designated Countries can be found at: <https://www.nasa.gov/oiiir/export-control>.

Eligibility is currently open to:

- U.S. Citizens;
- U.S. Lawful Permanent Residents (LPR);
- Foreign Nationals eligible for an Exchange Visitor J-1 visa status; and,
- Applicants for LPR, asylees, or refugees in the U.S. at the time of application with 1) a valid EAD card and 2) I-485 or I-589 forms in pending status

**Eligibility Requirements** • **Degree:** Doctoral Degree.
