

**Opportunity Title:** Remote Sensing of Atmospheric Composition Ground-Based

Spectroscopy

**Opportunity Reference Code:** 0012-NPP-NOV23-JPL-EarthSci

#### **Organization**

National Aeronautics and Space Administration (NASA)

#### **Reference Code**

0012-NPP-NOV23-JPL-EarthSci

#### **Application Deadline**

11/1/2023 6:00:59 PM Eastern Time Zone

#### **Description**

Remote sensing spectroscopy is a powerful technique for the measurement of atmospheric species and aerosols that affect air quality and ozone chemistry in Earth's atmosphere. At JPL's Table Mountain Facility, we operate state-of-the-art spectrometers for passive atmospheric composition measurements by measuring direct and scattered light from the Sun and Moon. Techniques such as high-resolution spectroscopy and spectropolarimetry enable the measurement of important trace molecules that affect air quality such as O<sub>3</sub>, OH, NO<sub>2</sub>, NO<sub>3</sub>, BrO, IO, SO<sub>2</sub>, HCHO as well as species that affect climate change such as water vapor, CO<sub>2</sub>, CH<sub>4</sub> and aerosols. The data are analyzed in collaboration with atmospheric modeling groups to improve our understanding of changes in atmospheric chemistry and transport, and to validate the measurements of satellite remote sensing instruments.

**Applications with citizens from Designated Countries will not be accepted at this time, unless they are Legal Permanent Residents of the United States.** A complete list of Designated Countries can be found at: <https://www.nasa.gov/oair/export-control>.

Eligibility is currently open to:

- U.S. Citizens;
- U.S. Lawful Permanent Residents (LPR);
- Foreign Nationals eligible for an Exchange Visitor J-1 visa status; and,
- Applicants for LPR, asylees, or refugees in the U.S. at the time of application with 1) a valid EAD card and 2) I-485 or I-589 forms in pending status

#### **Eligibility Requirements**

- **Degree:** Doctoral Degree.

**Opportunity Title:** Remote Sensing of Atmospheric Composition Ground-Based Spectroscopy

**Opportunity Reference Code:** 0012-NPP-NOV23-JPL-EarthSci

# NPP

NASA Postdoctoral Program

ORAU Pathfinder

**Opportunity Title:** Remote Sensing of Atmospheric Composition Ground-Based Spectroscopy

**Opportunity Reference Code:** 0012-NPP-NOV23-JPL-EarthSci

Whether you are just starting your career or already at a senior level, ORAU offers internships, fellowships, research opportunities, and contract positions that can provide you with invaluable experience. Download the ORAU Pathfinder mobile app and find the right opportunity to propel you along your career path!
