

Opportunity Title: CDC Global HIV and TB Monitoring and Evaluation

Fellowship

Opportunity Reference Code: CDC-CGH-2023-0212

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-CGH-2023-0212

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the Apple or Google Play Store to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

If you have questions, send an email to ORISE.CDC.CGH@orau.org. Please include the reference code for this opportunity in your email.

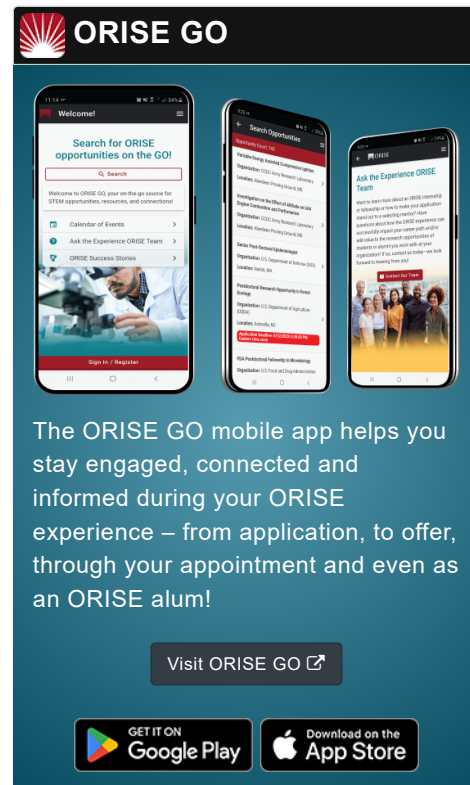

Application Deadline 8/31/2023 3:00:00 PM Eastern Time Zone

Description ***Applications will be reviewed on a rolling-basis.**

CDC Office and Location: A research opportunity is currently available with the Clinical Programs Monitoring and Evaluation (CPME) Team of the Monitoring, Evaluation, and Data Analysis Branch in the Division of Global HIV and TB (DGHT), within the Center for Global Health (CGH) at the Centers for Disease Control and Prevention (CDC) located in Atlanta, Georgia.

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

Research Project: The Clinical Programs Monitoring and Evaluation team strives to advance the collection, quality, analysis, and use of data in clinical HIV & TB prevention, care, and treatment programs to ensure effective patient management, program monitoring and evaluation (M&E), impact, equity, and accountability. Under the guidance of a mentor, the participant will have the opportunity to be involved in the collection, management, analysis, and use of HIV and TB program level data for use in summary dashboards, quarterly data reviews, country operational planning, and contributing to conference abstracts and manuscripts to improve real-time, evidence-based program enhancements.

Opportunity Title: CDC Global HIV and TB Monitoring and Evaluation Fellowship

Opportunity Reference Code: CDC-CGH-2023-0212

Learning Objectives: This fellowship will offer hands-on experience in the following activities:

- Support development of methods for active, responsive M&E at US agency, implementing partner, national, subnational and site levels within priority program areas
- Contribute to collaborations with CDC country offices to pilot new methods and standardized approaches for routine program monitoring and data quality improvement
- Participate on data quality teams in conducting assessments and validation of clinic and national level data
- Learn innovative and effective methods for the use of patient level data systems for patient management and program monitoring
- Develop skills for creating visualizations and data story boards with program results at the country level and across regions

Mentor(s): The mentor(s) for this opportunity is Sadhna Patel (spatel@cdc.gov). If you have questions about the nature of the research please contact the mentor(s).

Anticipated Appointment Start Date: September 29, 2023. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

Level of Participation: The appointment is full-time.

Participant Stipend: The participant will receive a monthly stipend commensurate with educational level and experience.

Citizenship Requirements: This opportunity is available to U.S. citizens only.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Opportunity Title: CDC Global HIV and TB Monitoring and Evaluation Fellowship

Opportunity Reference Code: CDC-CGH-2023-0212

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email ORISE.CDC.CGH@orau.org and include the reference code for this opportunity.

Qualifications The qualified candidate should be currently pursuing or have received a master's degree in one of the relevant fields. Degree must have been received within the past five years.

Eligibility Requirements

- **Citizenship:** U.S. Citizen Only
- **Degree:** Master's Degree.
- **Discipline(s):**
 - **Life Health and Medical Sciences** (2 )

Affirmation I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the ORISE program. (Exceptions may be granted for individuals who, since the previous CDC employment, have obtained a new STEM degree which necessitates training in a new field.)
