

Opportunity Title: OPTICAL DESIGN AND MODELING FOR THE HABITABLE WORLDS OBSERVATORY

Opportunity Reference Code: 0277-NPP-NOV23-GSFC-Astrophys

Organization National Aeronautics and Space Administration (NASA)

Reference Code 0277-NPP-NOV23-GSFC-Astrophys

How to Apply All applications must be submitted in [Zintellect](#)

Application Deadline 11/1/2023 6:00:00 PM Eastern Time Zone

Description Description:

Research and development opportunities exist at NASA in the optical design and modeling of advanced space flight instrumentation for the Habitable Worlds Observatory. Mission support involves performing optical design trades, detailed optical system and component design, tolerancing, performance analyses and modeling, and specifying optical components for fabrication. Current interests include the design and modeling of centered and unobscured all-reflective and catadioptric optical systems, freeform optics, lens system design, coronagraph and starshade design and modeling, spectroscopic instrumentation design and analysis, wavefront sensing and control of active optical systems, and polarization ray tracing including birefringent materials. Additional research topics consist of gradient index optics, holograms and holographic optical elements design, wave propagation, optomechanical design, stray light design and analysis, edge sensors, laser metrology trusses and in-process optical testing. Extensive computational resources and metrology test facilities are available for post-doc work here at NASA's Goddard Space Flight Center.

Field of Science: Astrophysics

Applications with citizens from Designated Countries will not be accepted at this time, unless they are Legal Permanent Residents of the United States.?A complete list of Designated Countries can be found at:

<https://www.nasa.gov/oiir/export-control>. ?

Eligibility is currently open to:

- U.S. Citizens;
- U.S. Lawful Permanent Residents (LPR);
- Foreign Nationals eligible for an Exchange Visitor J-1 visa status; and,
- Applicants for LPR, asylees, or refugees in the U.S. at the time of application with 1) a valid EAD card and 2) I-485 or I-589 forms in pending status

Eligibility Requirements • **Degree:** Doctoral Degree.

Whether you are just starting your career or already at a senior level, ORAU offers internships, fellowships, research opportunities, and contract positions that can provide you with invaluable experience. Download the ORAU Pathfinder mobile app and find the right opportunity to propel you along your career path!
