Description Background:

The EPA Environmental Research and Business Support Program has an immediate opening for an EPA Laboratory Assistant with the Office of Research and Development at the EPA's facility in Duluth, Minnesota.

The Office of Research and Development at the EPA supports high-quality research to improve the scientific basis for decisions on national environmental issues and help EPA achieve its environmental goals. Research is conducted in a broad range of environmental areas by scientists in EPA laboratories and at universities across the country.

The Mid-Continent Ecology Division (MED) of the Environmental Protection Agency's (EPA) Office of Research and Development is responsible for research on the broad area of aquatic toxicology, which is specifically relevant to this project. Specifically relevant to this position is the division's role in developing methods and toxicity data for assessing the bioaccumulation of methodologically challenging chemicals (MCCs) in aquatic organisms. The applicant will assist in all aspects of laboratory bioassays, toxicity testing, and chemical analyses in support of this effort.

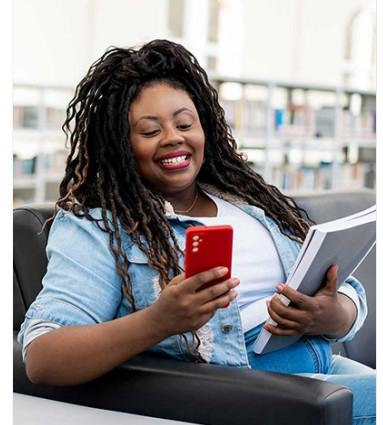

The applicant shall be expected to perform laboratory activities such as, cleaning of laboratory glassware, preparation of common reagents, preparation for and execution of bioassays, chemical and physical analysis of water, sediment, and tissue samples, and conducting chemical analyses using a variety of analytical and microscopy instrumentation. The applicant shall also develop new methods and approaches for characterizing hydrophobic chemicals in water, sediment and tissue samples. The applicant may be required to attend conferences and present papers. All necessary training and oversight shall be provided by EPA scientists serving as mentors.

The applicant shall follow standard operating procedures (SOP) provided by the Mentor. In addition, the applicant shall be involved in development of techniques, writing operating procedures (OPs), developing new SOPs and performing experiments with established chemists. The applicant shall maintain careful and accurate records in a laboratory notebook and follow the quality assurance guidelines for data entry in laboratory notebooks or electronic data management systems and calculations. This notebook, and all other data produced in performance of this work, shall be the property of the U.S. Environmental Protection Agency (EPA).

Location: This job will be located at EPA's facility in Duluth, Minnesota.

Opportunity Title: EPA Laboratory Assistant

Opportunity Reference Code: EPA-SSP-0009-7

Salary: Selected applicants will become temporary employees of ORAU and will receive an hourly wage of \$19.74 for hours worked.

Travel: Occasional overnight travel may be required.

Expected Start Date: The position is full time and expected to begin around June 2016. The selected applicant will be a temporary employee of ORAU working as a contractor to EPA. The initial contract period is through May 14, 2017. EPA may elect to renew the contract for an additional four 12-month optional periods.

Working Conditions: This position will be in a laboratory setting

For more information, contact EPAjobs@orau.org. Do not contact EPA directly.

Qualifications Eligible applicants must:

- Be at least 18 years of age and
- Have earned a Bachelor's degree in biochemistry, chemistry, toxicology, or a related field with substantive chemistry coursework within the last 24 months and
- Be a citizen of the United States of America or a Legal Permanent Resident.

EPA ORD employees, their spouses, and children are not eligible to participate in this program.

Required Knowledge, Skills, Work Experience, and Education

The applicant shall have:

- Two or more courses at the undergraduate level in biology from an accredited college/university,
- Demonstrated experience using GC/MS instrumentation,
- Demonstrated experience preparing samples for GC/MS analysis,
- A working knowledge of sediment testing with benthic invertebrates,
- Basic skills in Microsoft Office application of Word, Excel, and PowerPoint, and
- Strong written, oral and electronic communication skills.

- Eligibility Requirements**
- **Citizenship:** LPR or U.S. Citizen
 - **Degree:** Bachelor's Degree or Master's Degree received within the last 24 month(s).
 - **Discipline(s):**
 - **Chemistry and Materials Sciences** ([12](#))
 - **Life Health and Medical Sciences** ([2](#))

Affirmation I certify that I am at least 18 years of age; a recent graduate with a Bachelor's degree in biochemistry, chemistry, toxicology, or a related field with substantive chemistry coursework an accredited university or college within the last 24 months; a citizen or a Legal Permanent Resident of the
