Opportunity Reference Code: CDC-OD-2024-0018

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-OD-2024-0018

How to Apply *Connect with ORISE...on the GO!* Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

Application Deadline 4/12/2024 3:00:00 PM Eastern Time Zone

Description *Applications will be reviewed on a rolling-basis.

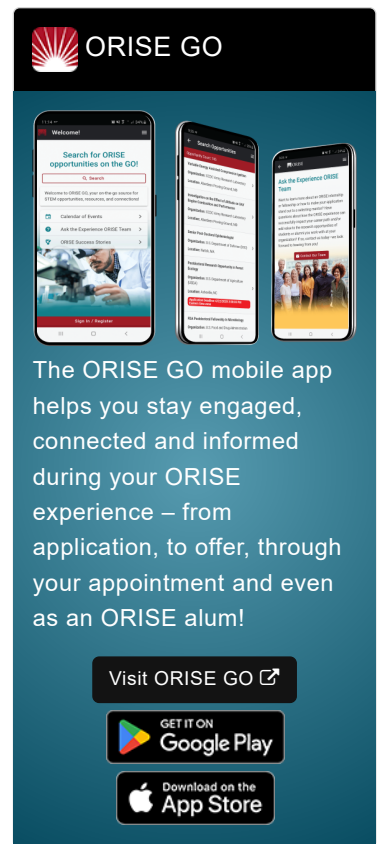

CDC Office and Location: A fellowship is available within the Division of Communication Science and Services in the Office of Communications at the Centers for Disease Control and Prevention (CDC) located in Atlanta, Georgia. CDC is the nation's leading science-based, data-driven, service organization that protects the public's health.

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

The Division of Communication Science and Services at CDC supports the scientific practice of health communication and shares evidence-based knowledge to public health practitioners. We develop and share health communication that is understandable and actionable across various audiences such as the general public, public health practitioners, and healthcare professionals.

Research Project: The Division of Communication Science and Services at CDC supports the scientific practice of health communication and shares evidence-based knowledge to public health practitioners. We develop and share health communication that is understandable and actionable across various audiences such as the general public, public health practitioners, and healthcare professionals.

The participant will collaborate closely with a team of health communicators in the Division of Communication Science and Services on a variety of communication projects and activities, including:

 OAK RIDGE INSTITUTE
FOR SCIENCE AND EDUCATION

 - **Communications and Graphics Design** ([5](#))
 - **Life Health and Medical Sciences** ([1](#))
 - **Social and Behavioral Sciences** ([13](#))

Affirmation I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the ORISE program. (Exceptions may be granted for individuals who, since the previous CDC employment, have obtained a new STEM degree which necessitates training in a new field.)
