**CDC Office and Location:**

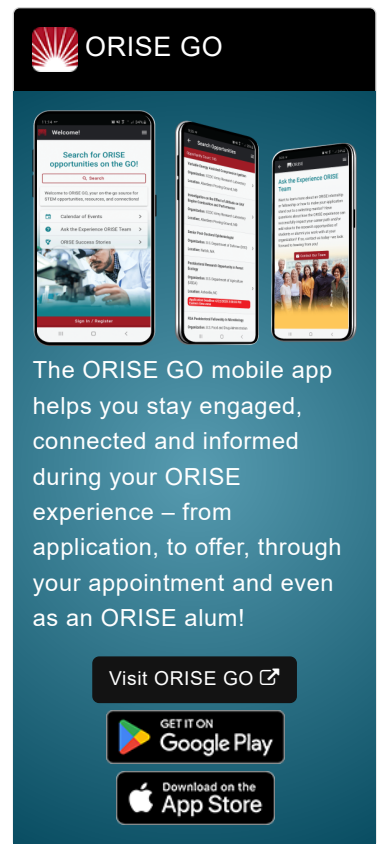

One fellowship opportunity is currently available with the Health Equity Unit (HEU) of the Division of Injury Prevention (DIP) in the National Center for Injury Prevention and Control (NCIPC) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same. DIP leads efforts to reduce unintentional and self-directed injuries. DIP's mission is to prevent injuries by connecting data, science, and action to ensure everyone has a fair and just opportunity to achieve their highest level of health.

**Research Project:** Under the guidance of a mentor, the ORISE participant will support health equity and program implementation and evaluation efforts for the division. Specifically, the fellow will assist with developing a project officer toolkit, conduct periodic environmental scan of novel/relevant policies at Federal, State or Local Level, and activities related to the DIP Injury and Violence Prevention Residency Program.

**Learning Objectives:** The fellow will have the opportunity to gain experience in a range of activities. Examples of experiences may include:

- Researching collaboratively with the Division of Injury Prevention staff to develop various knowledge and a project officer toolkit (training and technical assistance resources) and an inventory.
- Researching collaboratively the Health Equity Unit on activities related
