- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

Application Deadline 7/12/2024 3:00:00 PM Eastern Time Zone

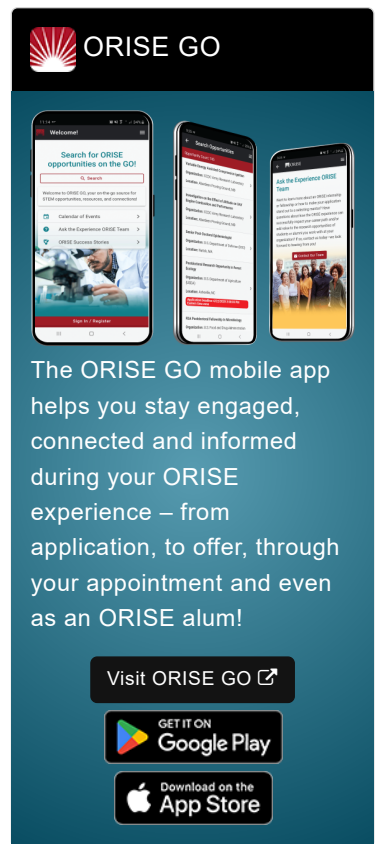

Description *Applications will be reviewed on a rolling-basis.

CDC Office and Location: A research opportunity is available in the Centers for Disease Control and Prevention (CDC) located in Atlanta, Georgia.

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

Research Project: The Clinical and Environmental Microbiology Branch (CEMB) is the laboratory branch in the Division of Healthcare Quality Promotion (DHQP). The mission of DHQP is to protect patients; protect healthcare personnel; and promote safety, quality, and value in both national and international healthcare delivery systems. The Office of Laboratory Strategies and Analytics (OLSA) in CEMB is seeking applications for a Master's level ORISE Fellow. Under the guidance of a mentor, the fellow will join the team as an public health analyst and train on how to analyze and evaluate processes and policies supporting a variety of antibiotic resistance activities focused on healthcare associated infections, including domestic and global networks like the Antibiotic Resistance Laboratory Network (AR Lab Network) and the Global Action in Healthcare Network (GAHN).

Learning Objectives: The fellow will collaborate and assist a multidisciplinary team and branch and staff, as well as external stakeholders in achieving strategic priorities including but not limited to analyzing and improving processes, producing reports, and assessing quality, efficiency, and/or sustainability of partnership services. The fellow will train on how to prepare reports, conduct research and analyze data, and provide consultation, training, and expertise for internal and external staff to support CEMB's strategic priorities in the areas of antimicrobial resistance detection and prevention. The fellow will learn how to draft recommendations for improvement based on the analyzed results and findings. They will perform analyses and evaluations of policies, legislation, and programs to provide staff

information and data to guide informed decision-making, strategy setting, and work plans. They will learn how to develop strategies and assist with partnerships to collaboratively achieve CEMB's goals through convening, leading, facilitating, and attending meetings, conferences, and other professional forums.

Mentor(s): The mentor for this opportunity is Jennifer Huang (uzo0@cdc.gov). If you have questions about the nature of the research please contact the mentor.

Anticipated Appointment Start Date: July 1, 2024. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

Level of Participation: The appointment is full time.

Participant Stipend: Stipend rates may vary based on numerous factors, including opportunity, location, education, and experience. If you are interviewed, you can inquire about the exact stipend rate at that time and if selected, your appointment offer will include the monthly stipend rate.

Citizenship Requirements: This opportunity is available to U.S. citizens, Lawful Permanent Residents (LPR), and foreign nationals. Non-U.S. citizen applicants should refer to the [Guidelines for Non-U.S. Citizens Details page](#) of the program website for information about the valid immigration statuses that are acceptable for program participation.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email ORISE.CDC.NCEZID@orau.org and include the reference code for this opportunity.

Qualifications The qualified candidate must have received a master's degree in one of the relevant fields, or currently be pursuing the degree with completion before the appointment start date. Degree must have been received within the past five years.

Preferred Skills:

- Experience with project management and/or program evaluation
- Excellent organizational and communication skills, including public speaking and preparation of written materials such as documents and reports
- Demonstrated ability to work efficiently, both independently and as part of a team
- Experience and/or degree in a public health field, health policy and management.

**Eligibility
Requirements**

- **Degree:** Master's Degree received within the last 60 months or currently pursuing.
- **Discipline(s):**
 - **Life Health and Medical Sciences** ([4](#) )
 - **Social and Behavioral Sciences** ([3](#) )

Affirmation I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the ORISE program. (Exceptions may be granted for individuals who, since the previous CDC employment, have obtained a new STEM degree which necessitates training in a new field.)
