

Opportunity Title: CDC Health Science and Health Education

Opportunity Reference Code: CDC-ORR-2024-0181

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-ORR-2024-0181

How to Apply *To submit your application, scroll to the bottom of this opportunity and click **APPLY**.*

A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

Connect with ORISE...on the GO! Download the new ORISE GO mobile app in the [Apple App Store](#) or [Google Play Store](#) to help you stay engaged, connected, and informed during your ORISE experience and beyond!

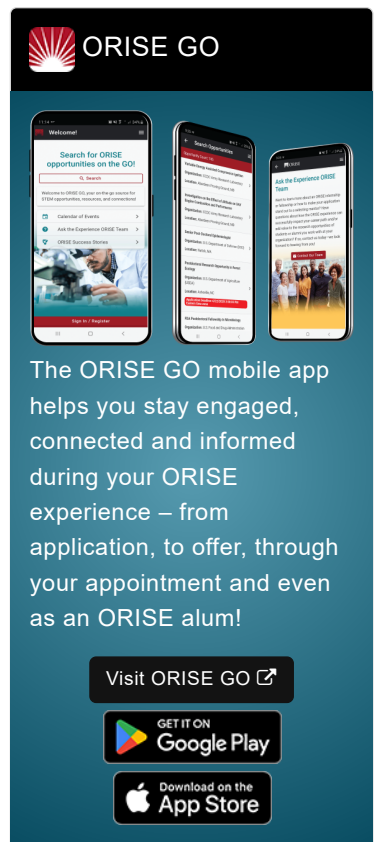

Description *Applications will be reviewed on a rolling-basis.

CDC Office and Location: A research opportunity is available in the Community-based Solutions and Health Equity Branch, Division of Readiness and Response Science within the Office of Readiness and Response (ORR), at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

The Centers for Disease Control and Prevention (CDC) is one of the major operation components of the Department of Health and Human Services. CDC works to protect America from health, safety and security threats, both foreign and in the U.S. Whether diseases start at home or abroad, are chronic or acute, curable or preventable, human error or deliberate attack, CDC fights disease and supports communities and citizens to do the same.

Research Project: This project will collaborate across teams in the branch to provide an opportunity to learn about health equity and the needs of priority populations and settings before, during, and after public health emergencies. Under the guidance of a mentor, the ORISE fellow will learn about and train in developing evidence-based tools, resources, trainings, and communication and dissemination activities that are focused on behavioral science and health equity as well as specific populations and settings (e.g., schools, correctional facilities, homeless shelters). This is an opportunity to gain hands-on experiences which provide a direct impact to the nation's public health preparedness. This includes an opportunity to learn more about other aspects of public health response and preparedness.

Learning Objectives: This fellowship will offer the opportunity to learn

Opportunity Title: CDC Health Science and Health Education

Opportunity Reference Code: CDC-ORR-2024-0181

about and obtain hands-on experience in the following activities:

- Scientific methods to translate, communicate, disseminate, and learn how to implement evidence-based interventions and strategies for health equity in emergency readiness and response.
- Learn how to use and apply data driven decision making for emergency management preparedness and response for domestic and global public health emergencies.
- Train in the development of scientific manuscripts, tools, resources, and presentations.
- Gain experience in relevant and timely technical assistance and training focused on health equity and priority populations and settings to internal and external partners.

Mentor(s): The mentor for this opportunity is Allison Harrington (frt5@cdc.gov). If you have questions about the nature of the research please contact the mentor(s).

Anticipated Appointment Start Date: September 9, 2024. Start date is flexible and will depend on a variety of factors.

Appointment Length: The appointment will initially be for one year, but may be renewed upon recommendation of CDC and is contingent on the availability of funds.

Level of Participation: The appointment is full time.

Participant Stipend: Stipend rates may vary based on numerous factors, including opportunity, location, education, and experience. If you are interviewed, you can inquire about the exact stipend rate at that time and if selected, your appointment offer will include the monthly stipend rate.

Citizenship Requirements: This opportunity is available to U.S. citizens only.

ORISE Information: This program, administered by ORAU through its contract with the U.S. Department of Energy (DOE) to manage the Oak Ridge Institute for Science and Education (ORISE), was established through an interagency agreement between DOE and CDC. Participants do not become employees of CDC, DOE or the program administrator, and there are no employment-related benefits. Proof of health insurance is required for participation in this program. Health insurance can be obtained through ORISE.

The successful applicant(s) will be required to comply with Environmental, Safety and Health (ES&H) requirements of the hosting facility, including but not limited to, COVID-19 requirements (e.g. facial covering, physical distancing, testing, vaccination).

Questions: Please visit our [Program Website](#). After reading, if you have additional questions about the application process please email ORISE.CDC.ORR@orau.org and include the reference code for this opportunity.

Opportunity Title: CDC Health Science and Health Education

Opportunity Reference Code: CDC-ORR-2024-0181

 - **Discipline(s):**
 - **Communications and Graphics Design** (2👁)
 - **Life Health and Medical Sciences** (1👁)
 - **Mathematics and Statistics** (1👁)
 - **Social and Behavioral Sciences** (1👁)

Affirmation I certify that I have not previously been employed by CDC or by a contractor working directly for CDC. I understand that CDC does not permit individuals with a prior employment relationship with CDC or its contractors to participate as trainees in the ORISE program. (Exceptions may be granted for individuals who, since the previous CDC employment, have obtained a new STEM degree which necessitates training in a new field.)
