

Opportunity Title: Graded Property RF Structures Using Advanced Manufacturing **Opportunity Reference Code:** ICPD-2025-34

Organization Office of the Director of National Intelligence (ODNI)

Reference Code ICPD-2025-34

Complete your application – Enter the rest of the information required for the IC Postdoc Program Research Opportunity. The application itself contains detailed instructions for each one of these components: availability, citizenship, transcripts, dissertation abstract, publication and presentation plan, and information about your Research Advisor co-applicant.

Additional information about the IC Postdoctoral Research Fellowship Program is available on the program website located at: <u>https://orise.orau.gov/icpostdoc/index.html.</u>

If you have questions, send an email to <u>ICPostdoc@orau.org</u>. Please include the reference code for this opportunity in your email.

Application Deadline 2/28/2025 6:00:00 PM Eastern Time Zone

Description Research Topic Description, including Problem Statement:

Problem: Radiated RF signals are vital to defense communications. Efficiently receiving or transmitting weak signals at low frequencies using small antennas is a persistent challenge. 3D printing of RF materials has made it possible to manufacture RF lenses/absorbers with gradients in properties, potentially advancing performance or reducing the size of antennas. This research should holistically study novel structures and novel manufacturing methods / materials for optimal performance.

Example Approaches:

- Fused filament fabrication with varying densities of the lattice of an RF polymer or conductive absorber
- Stereolithography of varying lattice densities using Ceramic loaded photoresin
- · Actively mixed 2-component syringe extrusion of two materials

Relevance to the Intelligence Community:

2N 127 Develop/enhance means to periodically search broad regions for specific but low signals **Key Words:** radio frequency, RF, graded index, 3D printing, advanced manufacturing

Qualifications Postdoc Eligibility

- U.S. citizens only
- Ph.D. in a relevant field must be completed before beginning the appointment and within five years of the appointment start date
- Proposal must be associated with an accredited U.S. university, college, or U.S. government laboratory
- Eligible candidates may only receive one award from the IC Postdoctoral Research Fellowship Program

OAK RIDGE INSTITUTE FOR SCIENCE AND EDUCATION

💹 ORISE GO

The ORISE GO mobile app helps you stay engaged, connected and informed during your ORISE experience – from application, to offer, through your appointment and even as an ORISE alum!

Opportunity Title: Graded Property RF Structures Using Advanced Manufacturing **Opportunity Reference Code:** ICPD-2025-34

Research Advisor Eligibility

- Must be an employee of an accredited U.S. university, college or U.S. government laboratory
- Are not required to be U.S. citizens

Point of Contact Keri Tarwater

- Eligibility Citizenship: U.S. Citizen Only
- Requirements Degree: Doctoral Degree.
 - Discipline(s):
 - Chemistry and Materials Sciences (12.)
 - Communications and Graphics Design (<u>3</u>)
 - Computer, Information, and Data Sciences (17. 1)
 - Earth and Geosciences (21. (21)
 - Engineering (27 •)
 - Environmental and Marine Sciences (14 (14)
 - Life Health and Medical Sciences (45 (19)
 - Mathematics and Statistics (<u>11</u>)
 - Other Non-Science & Engineering (2.)
 - Physics (<u>16</u>)
 - Science & Engineering-related (1.)
 - Social and Behavioral Sciences (<u>30</u>)
