

# **Opportunity Title:** CDC Veterinary Training Program Fellowship **Opportunity Reference Code:** CDC-NCEZID-2019-0201

Organization Centers for Disease Control and Prevention (CDC)

#### Reference Code CDC-NCEZID-2019-0201

How to Apply A complete application consists of:

- An application
- Transcripts <u>Click here for detailed information about acceptable transcripts</u>
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

If you have questions, send an email to <u>ORISE.CDC.NCEZID@orau.org</u>. Please include the reference code for this opportunity in your email.

#### Application Deadline 10/4/2019 3:00:00 PM Eastern Time Zone

### Description \*Applications will be reviewed on a rolling-basis.

A research opportunity is currently available at the One Health Office, within the National Center for Emerging and Zoonotic Infectious Diseases (NCEZID) at the Centers for Disease Control and Prevention (CDC) located in Atlanta, Georgia.

The One Health Office recognizes that the health of people is connected to the health of animals and the environment. It is a collaborative, multisectoral, and transdisciplinary approach—working at the local, regional, national, and global levels—with the goal of achieving optimal health outcomes recognizing the interconnection between people, animals, plants, and their shared environment.

The selected participant will gain experience in the field of infectious and zoonotic diseases, specifically those that involve the animal-human interface and One Health. The specific projects involve epidemiologic, programmatic, and educational projects related to the prevention and control of zoonoses (including One Health Disease Prioritization Workshops), and contributing to the development of guidance for use by human and animal health partners that can enhance surveillance, response, and prevention of zoonoses and antimicrobial resistance.

Under the guidance of a mentor, the participant will be trained in the following activities:

- Contributing to One Health activities related to animal-human interface issues, emerging and re-emerging zoonotic diseases, antimicrobial resistance, pandemic preparedness, and outbreak response
- Conducting systematic reviews and literature searches to support the development of
  evidence- based recommendations related to zoonoses and One Health
- Primary and secondary data abstraction, interpretation, analysis, and synthesis
- Maintaining accurate records of process-specific objectives, timelines, outcomes, and deliverables
- Contributing to the development of One Health frameworks
- Writing and editing summary of evidence documents and prevention recommendations
- Collaborating with One Health groups (both internal and external to CDC), professional human and animal health societies, local, state and city health departments, non-governmental
