

Opportunity Title: CDC Environmental Health Practice and Informatics Fellowship

Opportunity Reference Code: CDC-NCEH-2020-0007

Organization: Centers for Disease Control and Prevention (CDC)

Reference Code: CDC-NCEH-2020-0007

How to Apply: A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

If you have questions, send an email to ORISE.CDC.NCEH@orau.org. Please include the reference code for this opportunity in your email.

Application Deadline: 12/6/2019 3:00:00 PM Eastern Time Zone

Description: *Applications will be reviewed on a rolling-basis.

A research opportunity is currently available within the Water, Food and Environmental Health Services Branch (WFEHSB), in the Division of Environmental Health Science and Practice (DEHSP) of the National Center for Environmental Health (NCEH) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

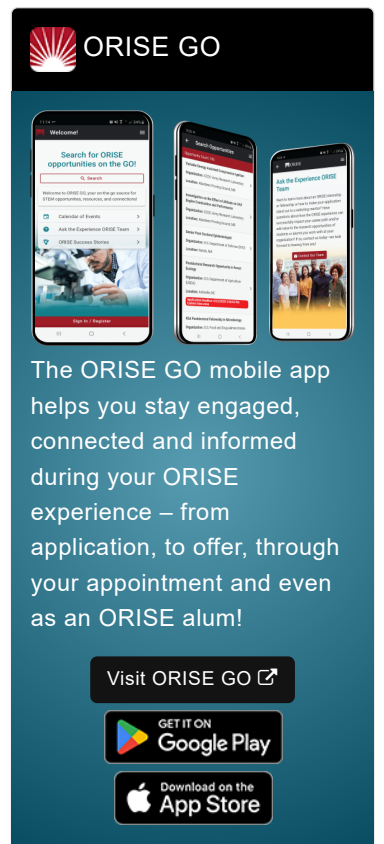

The WFEHSB mission is to strengthen the roles of state, tribal, local, territorial and national environmental health (EH) programs and their professionals to better anticipate, identify, and respond to adverse environmental exposures and their consequences for human health. The participant will be assigned to the WFEHSB EH Practice Section, which focuses on advancing the field of EH by empowering EH professionals, strengthening partnerships, designing innovative solutions, and promoting best practices. This research opportunity focuses on EH information systems, informatics, as well as data use and visualization to enhance EH services and practices.

Under the guidance of a collaborative team of professionals within the EH Practice Section, the selected participant will be involved in the following:

- Contributing to EH informatics resource development and approaches for strengthening the standardization and utility of EH information systems
- Conducting literature reviews to inform methodological approaches for identifying and determining EH evidence-based practices
- Contributing to the design and development of EH educational and informational materials (factsheets, infographics, training courses, webinars, etc.)
- Participating in responses to EH technical assistance requests through research, scientific reasoning, and effective communication
- Contributing to various EH research projects involving data analysis and reporting results

Anticipated Appointment Start Date: November 1, 2019 or later

This program, administered by ORAU through its contract with the U.S. Department of Energy to manage the Oak Ridge Institute for Science and Education, was established through an interagency agreement between DOE and CDC. The initial appointment can be up to one year, but may be renewed upon recommendation of CDC contingent on the availability of funds. The
