

Opportunity Title: CDC Health Communications Fellowship

Opportunity Reference Code: CDC-NCHHSTP-2020-0048

Organization Centers for Disease Control and Prevention (CDC)

Reference Code CDC-NCHHSTP-2020-0048

How to Apply A complete application consists of:

- An application
- Transcripts – [Click here for detailed information about acceptable transcripts](#)
- A current resume/CV, including academic history, employment history, relevant experiences, and publication list
- One educational or professional recommendation. Your application will be considered incomplete, and will not be reviewed until one recommendation is submitted.

All documents must be in English or include an official English translation.

If you have questions, send an email to ORISE.CDC.NCHHSTP@orau.org. Please include the reference code for this opportunity in your email.

Application Deadline 2/12/2020 3:00:00 PM Eastern Time Zone

Description *Applications will be reviewed on a rolling-basis.

An opportunity is currently available with the Communications, Education, and Behavioral Studies Branch, in the Division of Tuberculosis Elimination (DTBE), within the National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP), at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia.

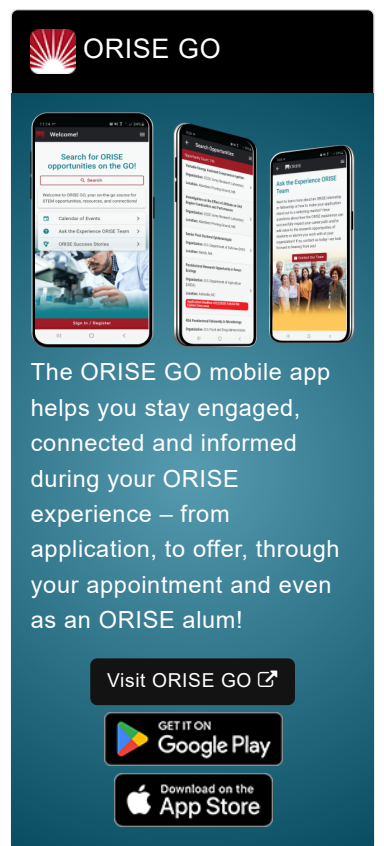

The mission of the DTBE is to promote health and quality of life by preventing, controlling, and eventually eliminating tuberculosis in the United States.

The research participant will be placed in the Communications, Education, and Behavioral Studies Branch (CEBSB) within the DTBE. This project will provide the participant with an educational experience in health communications and social marketing around tuberculosis disease and latent tuberculosis infection.

Under the guidance of a mentor, the participant will be involved in the following activities:

- Contributing to the development of health communication materials, products, and messages
- Conducting communications research
- Disseminating health information through a variety of communication channels
- Participating in the development and implementation of a communications campaign to reach key target audiences with important health messages
- Supporting community engagement and mobilization activities through social marketing efforts
- Contributing to drafting and reviewing documents and reports
- Presenting findings and recommendations at national forums and in peer-reviewed journals
- Contributing to formative research efforts and communications to eliminate tuberculosis in the United States
- Participating in message testing efforts around tuberculosis and latent tuberculosis infection testing and treatment for high risk groups
- Participating in Branch and Team meetings
- Maintaining communication with project leaders

This participant will be engaged with Branch leadership and project staff. Opportunities for networking with subject matter experts will be made available.
