Applicants are encouraged to request a letter of recommendation before submission as this may help reviewers have a better understanding of the applicant's qualifications and interests. If selected, a letter recommendation must be submitted on your behalf upon acceptance of the appointment.

**Description** US Air Force En route Care Research Center is located in the Army Institute of Surgical Research at Fort Sam Houston, TX. The research team includes active duty emergency medicine physicians, scientists, research coordinators, and a program manager. The center conducts research related to the en route care of combat casualties from point of injury to and between medical treatment facilities.

The USAISR SAMMC and 59<sup>th</sup> Clinical Research Division is offering a research opportunity focusing on the retrospective record review of casualties with burn injuries transported by the Air Force Critical Care Air Transport Teams (CCATT) and Burn Flight Teams. We will describe and compare the care and outcomes between groups. The knowledge gained by this study will inform training and clinical practice guidelines related to the direct care of patients with burn injuries. Under the guidance of a mentor, the participant will take part in integrated, complementary and inter-disciplinary approaches to combat casualty care and address programmatic, procedural & regulatory research. The ORISE participant will learn from military and civilian
